"BRIEF SURVEY OF A CHAPTER" WORKSHEET

Like me, if you have often felt the frustration of trying to remember the contents of a chapter, perhaps this will be of help. The "Brief Survey of a Chapter" Worksheet is designed to aid the bible reader to note down the main points of a chapter and the truths that it teaches for personal application.

As you complete this for each chapter of each book you read, hopefully you can better retain the contents. Taking notes is one way of engaging the brain to focus more closely to the contents of what is being read.

A tip: Upon completion of a particular book, it will help to review the entire worksheet for that book in order to better retain the contents.

Below are few samples on how to use the Key Truths from Chapter Sheet.
